

PhotonHub at Tech Tour Photonics 2025 in Berlin, Germany

15 October 2025

Brussels, Belgium

PhotonHub was delighted to participate in [Tech Tour Photonics Berlin 2025](#), held as part of Photonics Days Berlin–Brandenburg, Germany. The event brought together more than 30 startups, 40 investors, and key players from across Europe’s photonics ecosystem for two days of pitching, networking and collaboration.

Representing PhotonHub, [Peter Doyle](#) had the honour of presenting the €5,000 winner’s cheque to [Phanofi](#), the winner of the PhotonHub Launchpad Track 2025.

Throughout the event, over 30 innovative companies pitched their photonics and photonics-enabled solutions, spanning fields from healthcare and sensors to semiconductors and augmented reality. The creativity and technological potential showcased by these startups demonstrated once again how powerful applied light can be in driving Europe’s innovation and competitiveness.

The expert jury recognised the following companies as top presenters:

- Admir Analysis
- FlulDect
- Eyeo
- Solinide Photonics
- Phanofi
- Photon Bridge
- Quantune Technologies
- Trilite Technologies
- Xavveo

PhotonHub is proud to support the Tech Tour Photonics Launchpad Programme, which helps early-stage photonics companies scale up and attract investment.

We thank our partners and organisers : Tech Tour, OpTecBB, Berlin Partner für Wirtschaft und Technologie GmbH, Photonics21, Sheffield Haworth and EPIC for making this event such a success.

Want to meet us at a future event? See where PhotonHub and our partners will be next on our [events page](#).
